

# MCA CarbonComply

Carbon Reporting | Simplified

# Why Know Your Carbon Footprint

*It turns data into decisions your board, buyers, and lenders trust.*

Meet UAE climate reporting expectations with credible numbers.

Win tenders and satisfy lenders with assurance-ready figures.

Detect energy waste and fuel leaks that increase costs.

Stay in buyer programs as Scope 1 & 2 become key supplier requirements.

Protect exports from EU Carbon Border Adjustment Mechanism (CBAM) risks.

Set measurable targets linked to capital expenditure plans.

Provide stakeholders with clear, auditable data.

# What is CarbonComply?

*A reporting solution which helps you know your carbon footprint, cut waste, and report with confidence.*

**1** Audit-aligned numbers under GHG Protocol and ISO 14064-1

**2** Supports UAE Climate Change reporting requirements

**3** Faster path from bills to board-ready reports

**4** Reusable workflow your team can run next year

**5** Monthly, source-level visibility to spot energy and fuel waste

**6** Audit evidence pack available as an add-on

**7** Scope 3 reporting offered as an add-on

**8** Scales from one site to large portfolios with consistent controls

# Who Benefits from CarbonComply

- ▶ Regulated and large emitters
- ▶ Government contractors and state-owned enterprise suppliers
- ▶ Exporters exposed to CBAM and buyer rules
- ▶ Portfolio owners, facility managers, landlords

## Sectors We Support

-  Energy & Heavy industry (Cement, Steel, Aluminium, Fertilisers, Utilities)
-  Retail, Supermarkets, Cold Chain
-  Real estate and Facilities Management
-  Data Centers and Telecom
-  Public sector entities and SOEs
-  Light Industry and Packaging
-  Healthcare and Hospitals
-  Logistics and Warehouses

# Deliverables

→ GHG Protocol report

→ ISO 14064-1 report

→ Inventory export (XLSX/CSV) with monthly and annual totals and factor references

→ Short foreword noting organizational/site boundaries and the reporting year

→ Handover note for files and next steps

→ One review round and two weeks of Q&A

## Add-ons

- + Scope 3 screening and report
- + Audit evidence pack assembly - source files, factor register, change log, sampling file
- + Quarterly refresh within the same reporting year
- + Tender or lender pack: one-pager and condensed slides
- + Support during external verification

**Carbon reporting made simple,  
credible, and future-ready.**
